

Quality Policy

We at REV Clinical understand that our clients have chosen us to make their vision a reality. Upholding their trust is our foremost responsibility.

We leverage therapeutic knowledge, technical expertise, experience, and technology to provide quality solutions that meet or exceed clients' expectations within committed timelines. Our services comply with applicable national and international guidelines and regulations while maintaining confidentiality, transparency, and integrity.

Management has inculcated a quality culture where personnel understand that data integrity is an organizational core value. All personnel are encouraged to identify and promptly report data integrity issues to the following:

**Director,
Quality Assurance**

kinnari.gandhi@revclinical.com

**Management,
REV Clinical**

sandeep.singh@revclinical.com

**Management,
REV Clinical**

manoj.vyas@revclinical.com

Our commitment to clients is based on a total understanding of their requirements in pursuit of global standards. We believe in continuous upgradation of processes, which are tuned to ensure consistent quality.

REV's data governance framework establishes standards and processes to maintain the quality, integrity, and consistency of clinical trial data, ensuring the rights, safety, and well-being of all trial participants.
